

EmissionTrack

EmissionTrack Landing Page Documentation

This document provides a comprehensive guide to the structure, styling, and functionality of the EmissionTrack landing page. It covers the HTML, CSS, and JavaScript components, ensuring the site meets the requirements and design specifications.

Table of Contents

1. Introduction
2. HTML Structure
3. CSS Styling
4. JavaScript Functionality
5. Responsive Design
6. Deployment

Introduction

The EmissionTrack landing page aims to provide an overview of the company's mission, services, and benefits, attracting potential clients by offering a clear understanding of what EmissionTrack offers. The page is built with HTML5, CSS3, and JavaScript, ensuring responsiveness and interactivity.

HTML Structure

The HTML file defines the layout and content of the landing page. It includes sections for the header, main content, and footer. Key elements include a navigation menu, hero section, overview, services, benefits, testimonials, team, and contact information.

CSS Styling

The CSS file provides the styling for the landing page, ensuring a cohesive and visually appealing design. Key features include responsive layout, color schemes, and font choices.

JavaScript Functionality

The JavaScript file enhances the interactivity of the landing page. It includes functions for toggling the menu on mobile devices, smooth scrolling, and theme switching.

Responsive Design

The landing page is designed to be responsive, ensuring it looks and functions well on a variety of devices, including desktops, tablets, and mobile phones. Media queries in the CSS file handle layout adjustments for smaller screens, while JavaScript enhances user interaction across all devices.

Deployment

The application is deployed on Netlify, and the url to the application is the one below.

<https://6678ba0c543aae04f2ed7453--mellifluous-cascaron-eae9bd.netlify.app/>

That is the URL of the website for Emissiontrack which was deployed on netlify.

This concludes the EmissionTrack landing page documentation. For further assistance or inquiries, please contact the EmissionTrack development team at clearancemorumudi@outlook.com or +27 76 960 6305
